Welcome to Restaurant

The people, food and the prime locations make the perfect place good friends & family to come together and have great time.

VIEW MENU

The TastEat is a well-established restaurant with a reputation for its exceptional cuisine, prime location and inviting atmosphere.

As a UI/UX designer, my task was to redesign the existing landing page to create a more engaging and user-friendly online experience that would reflect the restaurant's unique charm and delectable offerings.

Harmonize the website's aesthetics with its rich atmosphere, making it easier for visitors to discover the restaurant's unique offerings and what sets it apart.
